

# Summaries of the Ten Listen to the Sound Citizen Hearings

May 30 - June 29, 2000

Over the next 75 pages, you will read the summaries of the ten Listen to the Sound 2000 citizen hearings. These hearings, held in ten locations, had 200 people testify and nearly 600 people attend. The summaries were based on over 1,200 pages of transcripts and several hundred pages of written testimony.

These citizen hearing summaries not only make a compelling case for Long Island Sound, but also provide the basis for the Citizens' Agenda and Reserve Category chapters in this report. Once again, the people of Long Island Sound became the voice of the Sound. Our job is simple - to Listen to the Sound.
